Remarks

Title Rejection

The Title was rejected for specification, and not being sufficiently descriptive. The Title was amended to include a minor modification that is more descriptive, that further defines the invention to more accurately reflect the primary purpose of the invention and overcome the rejections raised by the Examiner.

Claim Objections

Claims 1 – 10 are pending in the application. Claim 1, lines 2 and 3 were amended to correct informalities raised by the Examiner and replace 'compromises' with 'comprises'. Additionally, lines 2 and 4 of the Abstract were amended to appropriately correct 'compromises' with 'comprises'.

Claim Rejections under 35 USC 112

Claims 1 – 10 were rejected under 35 USC 112. Claims 1 and 10 were amended to further define the invention and describe integrating the translated content component with the voice model component to more accurately reflect conversational speech. The Applicant respectfully requests allowability of claims 1- 10 based on these amendments, as one skilled in the relevant art would recognize the term 'content component' as disclosed and that the Applicant had full possession of the claimed invention.

Date: 10/8/2007

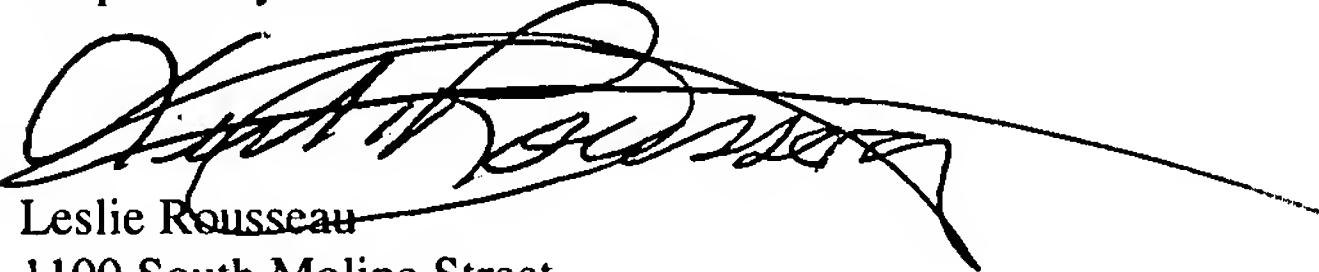

Claim Rejections under 35 USC 102

Claims 1 and 10 have been amended to describe the feature of integrating components to more accurately reflect conversational speech. Accordingly, the rejections under 35 USC (102) as being anticipated by Rondel et al. (USPN 4,984,177) should be withdrawn as the reference fails to teach the amended features.

Additionally, the Applicant submits the rejections under 35 USC (102) should be withdrawn since the reference Rondel et al. (USPN 4,984,177) requires features for performance such as an initial set up by a user to create an output language that is not required nor described in the present invention.

The Applicant respectfully requests examination based on the amended claims and has included a check for the appropriate fees in connection with the 6 month extension and filing of this amendment. Please contact the undersigned Applicant at 720- 275-9640 or Widdie8@msn.com if the Examiner has questions or it is determined there are any other fees that are due with this filing.

Respectfully submitted,

Leslie Rousseau
